INTRODUCTION: EU, INSTITUTIONS AND POLICIES

IEUSS anticipates establishing a three credit, week long study tour in Brussels and Bruges, Belgium as an elective addendum to our already successful Simulation of the European Union first established in 1986 as part of the State University of NY. The next simulation will be held in April 2023 at the SUNY Global Center in Manhattan with the study tour potentially in June 2023. ALL college students are invited to attend both.

Students who join the tour will be expected to participate in online discussions one week before departure, in person seminars during the tour, and be required to submit a formal proposal for consideration by the simulated EU as per the IEUSS Guide to the SUNYMEU and related website (16th edition, 2022): ieuss.buffalostate.edu. The goal is not to supply the answers but to use an inquiry model to guide the students to answering the questions for themselves.

Questions for discussion online and at the in person seminars are based on the following materials (Students will be expected to do additional research in answering and discussing the questions posed):
